Reasons for the Loan Capitalisation

The Group is principally engaged in the business as a system solutions provider.

While the Loan only involves HK\$1,368,000 and the Loan amount is not material, the Directors believe that it is in the interests of the Company to convert the Loan owed by the Group to the Creditor into share capital as the Loan Capitalisation can avoid unnecessary cash outflow from the Company when the Loan become due. The Board also considers that the Loan Capitalisation will enlarge the capital base of the Company and will reduce the gearing level of the Group thereby strengthening the financial position of the Group.

To the best of the Directors' knowledge, there is no material adverse change to the operation and financial position of the Group since the resumption of trading in Shares from the prolonged suspension on 15 October 2007 and it is not expected that the Loan Capitalisation will have any material impact to the operation and financial position of the Group, except the net asset value of the Group will increase as a result of the Loan Capitalisation.

The Directors (including the independent non-executive Directors) consider that the Loan Capitalisation Agreement is entered into upon normal commercial terms following arm's length negotiations between the parties to the Loan Capitalisation Agreement and that the conditions and terms of the Loan Capitalisation Agreement are fair and reasonable and are in the interests of the Shareholders as a whole.
